The main content area is titled 'Resource list / Db2-hw' and shows the instance is 'Active'. A sidebar on the left contains links for 'Manage', 'Getting started', 'Service credentials' (highlighted), and 'Connections'. The 'Service credentials' section includes a description: 'You can generate a new set of credentials for cases where you want to manually connect an app or external consumer to an IBM Cloud service.' Below this is a table of existing credentials.
